

Globetops Data Loss Waiver and Liability Release

Globetops makes every reasonable effort to ensure that user data remaining on donated laptops is removed before the hardware is redistributed. Globetops uses professional, trained, and qualified technicians for its data-scrubbing services. Globetops, however, cannot and does not accept liability for any lost or confidential data. It is assumed that the donor has backed up any important or proprietary data prior to donation. Additionally, Globetops strongly suggests that, prior to donating hardware for reuse, the donor (i) delete all data from the hard-disk drives and any other storage devices in the hardware and (ii) remove all removable data-storage media, such as diskettes, CDs, DVDs, PC cards or thumb drives.

By completing and signing this form, I (the donor) accept responsibility for any and all remaining confidential data that may be stored on the donated hardware and any associated media, and agree to indemnify, hold harmless, and defend Globetops, its officials and employees, and release and forever discharge Globetops, its officials and employees from any and all causes of action, claims and demands whatsoever growing out of any injury and/or property damage which may arise from the possession, transport, storage, reuse, recycling or disposal of the donated hardware.
